

WEST BEND.

Item No. 82386

CREATE DELICIOUS POPCORN OR NUT COMBINATIONS WITH THE WEST BEND® KETTLE KRAZY™!

Interest in creating fun and inexpensive snacks at home has consumers looking to the new West Bend® Kettle Krazy™ to satisfy their popcorn and nut cravings! Enjoy healthy, fun popcorn and nut snack creations. With rising interest in nuts as a healthy snack alternative, the West Bend® Kettle Krazy™ can help you create both nut and popcorn recipes with a single appliance! Research has recognized that eating nuts can be part of a healthy diet, and adding popcorn is a great, low calorie way to a new treat combination. Or, if fun at home is your goal, create taste-tempting pecan caramel popcorn clusters or toffee-glazed nuts in your West Bend® Kettle Krazy™!

With the ability to pop popcorn, roast, glaze or toast nuts in the same appliance, the Kettle Krazy™ provides a combination that is both easy and convenient to use. The motorized stir rod gently tumbles nuts with a heat setting tailored for the task. Watch through the clear cover as it glazes or roasts nuts to perfection. The separate setting for popcorn stirs and pops a maximum of 6 quarts of popcorn, served right in the clear cover/bowl combination.

Glazing nuts, creating snacks and popping popcorn is now the domain of one appliance! Use it with nut and popcorn glazes available from Focus Electrics, or let your imagination loose with the tasty recipes provided. Fun at home has never been easier than with the Kettle Krazy™ by West Bend®.

Founded in 1911, West Bend® is among the most recognized small appliance brands. It is known by consumers worldwide for its quality products and service, and is located in West Bend, Wisconsin. Focus Electrics, LLC is a subsidiary of Focus Products Group, LLC, a growth-oriented holding company based out of Vernon Hills, Illinois. Focus Products Group, LLC has other such notable brands as Back to Basics Products®, Jerdon®, Amco Houseworks®, Chicago Metallic®, and Swing-A-Way®.
